“ Anne was one of my closest friends for the years that we shared at WMU. A brilliant mind and outrageous sense of humor are what I remember most. She brought laughter with her wherever she went-- even as she was struggling through her first stages of her (at that time) undiagnosed lupus. I have always admired how she managed to keep such a positive spirit despite all that lupus took from her. I will always love and remember my dear friend, and I pray that your family will receive God's comfort in the months and years to come.

“ I was at Western with Anne, and got sick about 2 years after her. We had many discussions by email about living with a disability. Living being the key word there, despite limitations. She could laugh about anything. We both were thrilled we had our health problems, rather than the other person's problems. She would apologetically cheat at board games. She could think up more ways to be outrageous than most people I know.

“ She was my best friend in Howell and always will be my best friend. We would ice skate, ride bikes and spend all our time together. I was always thinking of her when life got tough because she always told me to work through the tough times and not give up or give in (when we were little). She was always the smart one! She helped me through my tough pre teen and teenage years. Forever Best Friends and Forever In My Heart! She is dearly missed.

“ Anne....where does time go? When does the heart heal? I can hear you singing those hymns as loud and earnestly today, as I heard you sing them back in our teens. And they bring me comfort, reminding me that you have attained the Eternal Glory. You are resting, safe in the arms of Jesus! I miss you, Anne. I miss you!
