“ Graduated with Eddie and have seen only a few times since. So sorry for your loss. It is always difficult to lose a husband, dad & grandpa.
My best memories of Eddie are many years back when he would invite us to Idle Wave and teach us to ski behind his boat. Remember he and the spotter nearly had to knock me out so I would quit fighting the life jacket and get back up in the middle of the lake. Fond memories of years gone by. Do wish he had graced our reunions with his presence. 'Peace be with you all.
